YOUR SALON SERVICES - INTRODUCTION

Here is an explanation of all the fields to be completed in this section:

1. Category

This area allows a maximum of 20 characters to describe the servicing category, this will also separate category for reporting and appointment will be easier to make. Examples: Facials, Body Wax, Massage, etc. You can create as many of these separate categories are as you require.

2. Description

This is where you describe each service within the Category (see 1. above). This description will appear on your Appointment Book and client history along with several other reports and marketing selections. You have a maximum of 35 characters for each service in this area.

NOTE: Try to describe each service differently, especially if the same type of service appears in more than one "Service Type (1.)" For example: "Waxing" could appear in "Service Type" for facial waxing or body waxing. One possible way around to describe them would be to describe them as:

Body Waxing - Facial Waxing

3. Discountable

Your choice here is either "Y" or "N". In most cases we tend to allow discount on our services (Pensioners, VIP, etc.), if this is the situation then "Y" is appropriate.

4. Price

This is the price you charge for each of your services including GST.

YOUR SALON SERVICES - INTRODUCTION CONTINUED

5. From prices

If you have a service with a “From price”, enter the minimum price you wish to charge in the “Price (GST incl.)” . Then write a “Y” in the “From Price” column. Prices cannot be adjusted below that minimum price when “from price” is used.

6. Online Booking

If you would like the services to appear as part of your online booking, please place a Y on this section.

7. Appointment Book

Your time Allocation for Beautyware are normally set to 15 min segments. (5 min or 10 min segments are also available upon request, but not all). In order for the Appointment Book to allocate the correct amount of time for each service and or procedure automatically when we book in a client, we must first include the times into the Services details. This is done via the “Appointment Book Service Time” column.

EXAMPLE: If a service takes an hour and a half to be completed, for example “Executive Facial”, then write: “90” in “Appointment Book Service Time” column.

8. SMS Auto Confirmation

To have an Appointment Confirmation Message automatically sent to your client the day before their appointment, the service must be SMS Enabled. All of the services that you wish to have confirmed automatically must be indicated by a “Y” in the “SMS AUTO CONFIRMATION” enable column.

EXAMPLE: Below, you will find a sample on how the completed sheets will look. You may personalise in your descriptions as you like. “Keeping it simple” is usually the best way. If you have any further questions or need any assistance with completing any part of these sheets please give us a call at 1300 880 582
